Rice harvest looks good

A combine transfers a load of rice into a cart in southwest Louisiana. Photo by Bruce Schultz/LSU AgCenter.

By Bruce Schultz
LSU AgCenter

(08/21/18) CROWLEY, La. - The 2018 rice harvest in southwest Louisiana is past the halfway point, and LSU AgCenter agents say farmers are pleased.

"Yields have been good, and it seems overall to be a very good crop," said Jeremy Hebert, LSU AgCenter agent in Acadia Parish. "Overall, it seems like the yields have been very good."

Most fields are producing around 45 barrels an acre — or 165 bushels or 7,200 pounds. The highest yields he has heard was 62 barrels (or 225 bushels or 10,000 pounds), Hebert said.

Lower yields could be the result of weed problems and issues that delayed fertilizer applications, he said.

Todd Fontenot, AgCenter agent in Evangeline Parish, estimated that two-thirds of the rice there has been harvested.

More rice fields are being used for crawfish this year instead of a second crop of rice. "I'm hearing more people saying they've stocked crawfish," Fontenot said.

Don Groth, resident coordinator at the LSU AgCenter H. Rouse Caffey Rice Research Station, said harvest results have been positive. "Overall, the numbers are good," he said.

A surprise has been the performance of the new Provisia rice variety PVL01. It was not expected to yield well but provide farmers with an option to fight weedy rice that could be controlled with the Provisia herbicide. Provisia yields in the mid-40-barrel range have been common, Groth said.

Performance of the new Amistar Top fungicide has been disappointing, although it performed well in previous years in small plots. It seemed to work well when used with another fungicide, Tilt, and it may require earlier applications, he said.

More smut disease than normal has been showing up, but fewer farmers have reported bad outbreaks of blast, Cercospora or sheath blight diseases, Groth said.

"Every year is unique, and we learn something new every year," he said.

Frances Guidry, AgCenter agent in Jefferson Davis Parish, said 60 to 70 percent of the crop has been cut, but bad weather interfered with farmers' progress. "Rain for seven days straight set them back," she said.

Yields in the low- to mid-40s are common, she said.

AgCenter extension rice specialist Dustin Harrell said yields are better than in the past three years. Weather played a big part in this year's good crop. Dry weather early in the season reduced chances for disease, he said, and good weather conditions were ideal for pollination.

It's possible the year could even set a harvest record. "It just depends on if these yields hold up on our later-planted rice," Harrell said.

Andrew Granger, AgCenter agent in Vermilion Parish, said yields there have been good, with most fields exceeding 40 barrels per acre.

"It's been a good year," Granger said. "With a couple of breaks in the weather, we got a lot of rice out."

Provisia has yielded better than anticipated, but its maturity has been uneven within the same field, he said.

Granger estimated that about half of the rice acreage will be used to grow a second crop, "just because the conditions have been so good."

Keith Collins, Richland Parish AgCenter agent, said rice harvest in northeast Louisiana has just started with a few farmers in the fields. "I think the rice looks good up here. We've got potential for a good crop," he said.

Four consecutive days of rain have held up harvest for rice. "That's going to delay us probably until the end of the week," Collins said.

Louisiana Agriculture & Forestry Today

Five teenagers arrested for horse theft in St. Landry Parish

Baton Rouge, La. (September 5, 2018) – The Louisiana Department of Agriculture and Forestry (LDAF) Livestock Brand Commission arrested two adults and three juveniles for theft of livestock.

Investigators said the suspects are accused of stealing six horses from a local livestock market. The estimated value of the six horses is $2,200.

The adult suspects are identified as 18-year-old Desment D. Green, 215 Oleander St., Opelousas, La. and 17-year-old Keyondra Cain, 1385 Julie St. Apt B., Opelousas, La. The juveniles are 14, 15 and 16 years old.

One of the three juveniles was remanded to the custody of the state as a result of other charges pending against him. The other suspects have been released to their parents or have bonded out of jail.

Investigators said the suspects removed the horses by cutting the fence of a local sale barn where the horses were being held. Over the course of several nights, six horses were taken. Investigators said two horses were sold by the suspects, three were abandoned and one has not been located. During the course of the investigation, five of the horses were recovered and returned to the owner.

"Investigators were able to recover these animals because they were microchipped which made them easier to identify as the horses that were stolen," said Commissioner Mike Strain, D.V.M. "Having livestock that is microchipped or branded is helpful in getting your property returned to you."

All five suspects are charged with multiple counts of theft of livestock which is a felony.

The St. Landry Parish Sheriff's Department assisted in this investigation.

You must be a subscriber and a Louisiana resident to advertise in the Louisiana Market Bulletin. All information must be complete and the price of each item for sale must be listed. Ads not meeting these requirements will not be printed. See other regulations under individual headings. Due to page limits, ads will be printed first come, first served. Mail ads to 5825 Florida Blvd., Suite 2001, Baton Rouge, LA 70806. Email ads to marketbulletinads@ldaf.state.la.us or fax to 225-923-4828.

CATTLE

Attention: Bull sellers and buyers. All non-virgin bulls and bulls older than 24 months for sale in Louisiana must have a current negative trichomoniasis test from an accredited veterinarian before they may be sold. Virgin bulls must have a breeder's certification of virgin status signed by the breeder, the breeder's agent or an accredited veterinarian. For more information, contact the LDAF Animal Health Services and Food Safety at 225-925-3980 or visit the website at www.ldaf.state.la.us.

REMINDER: Have all of your heifer calves between four and 12 months of age vaccinated against brucellosis. For information contact your local veterinarian, LDAF animal health personnel, your parish Cattlemen's Association or parish Farm Bureau.

DEER & EXOTICS

NOTICE: Effective November 19, 2012 LDAF has suspended the importation of the following captive cervidae: rocky mountain elk, red deer, mule deer, black-tailed deer, white-tailed deer and Sika deer into Louisiana.

Any person who keeps, breeds, raises, contains, harvests, kills, slaughters, buys, sells, trades, or transfers ownership of any type of farm-raised alternative livestock (deer and/or exotics) for commercial purposes shall obtain a farm-raising license, from the Louisiana Department of Agriculture and Forestry (LDAF) prior to engaging in such activity. For more information, contact the LDAF office of Animal Health at 225-925-3980.

Each time an ad is submitted for farm-raise alternative livestock (deer and/or exotics), it must be accompanied by a LDAF-issued permit number.

Download the new Horticulture app today

With our new mobile horticulture application, it's now simple to verify individuals claiming to be horticulture professionals. Did you know? Work such as plant bed preparation, bedding plant installation, landscape design, lawn irrigation system installation, tree trimming and fertilizer application all must be conducted by someone licensed through LDAF Be sure an individual is licensed before you hire them.

The new mobile app is available for both Apple and Android users. You can verify a horticulture license, permit of a business or file a complaint. Download it at the iTunes and Google Play stores.

Fresh produce farmers, packers, distribution centers

The Louisiana Department of Agriculture and Forestry is able to provide fresh produce farmers, packing facilities and distribution centers in Louisiana with basic Good Agriculture Practice/Good Handling Practices (GAP/GHP) audits, as well as, GAPs Harmonized audits (with or without the Global addendum).

GAP audits are a voluntary for hire service that 29certifies a producer's efforts to provide safe, quality product free from contamination to the consumer.

For more information or to schedule an audit, contact Audrey Carrier at our Hammond office at 985-543-4024 or email acarrier@ldaf.state.la.us.

SEPTEMBER NATIONAL RICE MONTH™

Source: www.thinkrice.com

Cranberry Pecan Rice Pilaf

2 tablespoons butter or margarine
1 cup uncooked rice
1 (14.5-ounce) can chicken broth
1 cup Parmesan cheese, grated
1/2 cup dried cranberries
1/2 cup pecans, toasted* and chopped
1/4 cup green onions, sliced
Salt and ground black pepper, to taste

Melt butter in 2-quart saucepan over medium heat. Add rice; cook and stir 2 to 3 minutes.

Add broth and heat to boiling; stir once or twice. Reduce heat; cover and simmer 15 minutes or until liquid is absorbed. Remove from heat.

Stir in cheese, cranberries, pecans and onions. Season to taste with salt and pepper.

Note: *To toast pecans, spread nuts on small baking sheet. Bake at 350 degrees 5 to 8 minutes, or until golden brown, stirring frequently.

Rice-Stuffed Poblanos

6 large poblano peppers
Cooking oil
3 cups cooked long grain rice
2/3 cup sour cream
1 1/2 cups smoked Gouda or cheddar cheese, shredded, divided
1 cup frozen corn kernels, thawed
1/3 cup cilantro leaves plus additional for garnish, chopped
Salt and pepper to taste

Preheat oven to 400 degrees. Slit each pepper lengthwise and microwave on HIGH for 3 -5 minutes, depending on the size, to soften.

Carefully remove loose seeds and veins, keeping stem intact. Rub pepper generously with oil and place on baking sheet.

Combine rice, sour cream, 1 cup cheese, corn and cilantro in a medium bowl. Season with salt and pepper.

Divide mixture to stuff each pepper; sprinkle with remaining cheese.

Bake in oven 20 to 25 minutes, until peppers are crisp-tender and filling is heated through. Garnish with cilantro.

USDA Launches Trade Mitigation Programs

(Washington, D.C., September 4, 2018) – U.S. Secretary of Agriculture Sonny Perdue recently launched the trade mitigation package to assist farmers suffering from damage due to unjustified trade retaliation by foreign nations.

Producers of certain commodities can now sign up for the Market Facilitation Program (MFP), while USDA will also begin to purchase identified commodities under a food purchase and distribution program. Additionally, USDA has begun accepting proposals for the Agricultural Trade Promotion Program (ATP), which will help American farmers find and access new markets for their products. In total, USDA will authorize up to $12 billion in programs, consistent with World Trade Organization obligations.

Perdue announced in July that USDA would act to aid farmers in response to trade damage from unjustified retaliation. These programs will assist agricultural producers to meet some of the costs of disrupted markets.

Package Details:

- USDA's Farm Service Agency (FSA) will administer the Market Facilitation Program (MFP) to provide payments to corn, cotton, dairy, hog, sorghum, soybean, and wheat producers who have been significantly impacted by actions of foreign governments resulting in the loss of traditional exports. The sign-up period for MFP is now open and runs through January 15, 2019, with information and instructions provided at www.farmers.gov/mfp. The MFP is established under the statutory authority of the Commodity Credit Corporation CCC Charter Act and is under the administration of USDA's FSA. Eligible producers should apply after harvest is complete, as payments will only be issued once production is reported. For more information or to locate and contact local FSA offices, interested producers can visit www.farmers.gov.
- USDA's Agricultural Marketing Service (AMS) will administer a food purchase and distribution program to purchase up to $1.2 billion in commodities unfairly targeted by unjustified retaliation. USDA's Food and Nutrition Service (FNS) will distribute these commodities through nutrition assistance programs, such as The Emergency Food Assistance Program and child nutrition programs. AMS will purchase products over four quarters in the new Federal fiscal year, which starts on October 1, 2018. The materials purchased may be adjusted between quarters to accommodate changes due to growing conditions, product availability, market conditions, trade negotiation status, and program capacity, among other factors
- Through the Foreign Agricultural Service's (FAS) Agricultural Trade Promotion Program (ATP), $200 million will be made available to develop foreign markets for U.S. agricultural products. The program will help U.S. agricultural exporters identify and access new markets and help mitigate the adverse effects of other countries' restrictions. Applicants may now submit proposals for the FAS $200 million ATP Program. FAS will accept applications on a rolling basis until November 2, 2018. Details regarding ATP and how to apply are available at https://www.fas.usda.gov/programs/agricultural-trade-promotion-program.

For the full details of the trade mitigation package, visit the USDA website at https://bit.ly/2NbUDi1.
