

FOREIGN LAND OWNERSHIP

Louisiana's land area equals approximately 27,879,680 acres. As of February 28, 2006 there were 23,870,712 acres of privately owned agricultural land in the state. Foreign owned agricultural lands total approximately 345,518 acres as reported by the U.S. Department of Agriculture, Farm Services Agency - Natural Resources Analysis Group in Miscellaneous Publication (MP)-80-6.

Foreign owned acreage, value, number of tracts, type of land, country of origin and a historical compilation of ownership can be viewed from the above options. Foreign land ownership information has been obtained from the Economic Research Service secured under the Agricultural Foreign Investment Disclosure Act of 1978.
