No plant material of low quality and no wilted or dead plant materials may be offered for sale to the general public or sold to a consumer except when specifically requested by the consumer.
- b. Floral designs, cut flowers, ornamental plants, and living or freshly cut plant materials shall be cared for in a manner that, to the extent reasonably possible, maintains their freshness and increases their longevity.

#### 2. Requirements

- a. Retail florist shops that lose their licensed florist will be granted a grace period of 90 days of operating without the services of a full-time licensed florist. This grace period shall end 90 days from that date. The purpose of this grace period is to provide the florist shop an opportunity to employ a licensed person. This grace period can only be used once in a 12-month period. Retail florist shops shall cease to engage in the profession of retail florist after the grace period has been exhausted. In the event a retail florist

shop, despite reasonable prevention efforts, loses its only or only remaining regularly employed licensed retail florist, the florist shop shall replace the regularly employed licensed retail florist as soon as possible but in no event more than 90 days from the first day the retail florist shop operated without a regularly employed licensed retail florist. Notwithstanding the foregoing, no retail florist shop shall operate without a regularly licensed retail florist for more than a total of 90 days in any 12-month period that follows the first day of operation without a regularly employed licensed retail florist.

- b. Retail florists may rent potted ornamental plants for special events such as weddings, conventions, trade shows, etc., if such plants are normally and customarily sold by florists and such plants do not require maintenance, other than normal watering. The words "State of Louisiana" shall be along the top circumference and the words "Licensed Landscape Architect" shall be along the bottom circumference. The individual's name shall be placed horizontally in the center of the field with his registration number below.   - c. The licensee shall sign his or her legal name on each document and shall then affix his or her seal over that signature. The presence of one's seal over the signature on any document constitutes proof that he or she accepts all legal and professional responsibility for the work accomplished. The seal shall be used only by the licensee responsible to this commission for authorship of the documents thus identified. No person other than the licensee represented shall use or attempt to use the prescribed seal, and no unlicensed person shall be authorized to use the prescribed seal. Authorized use of the prescribed seal is an individual act whereby the licensee shall personally inscribe the seal over his or her signature. The licensee is responsible for the security of the seal when not in use.
4. All designs and specifications utilizing sod shall specify the type and class of sod to be used as provided in §115.D and accompanied by the sod classification form specified by the commission.
5. Continuing Education Requirements
  - a. Compliance with these continuing education requirements is necessary for a landscape architect, ("licensee"), to maintain a landscape architect license in this state.
  - b. The commission shall administer the continuing education requirements through a standing continuing education committee consisting of not more than two staff members and at least three licensed Louisiana landscape architects elected by mail ballot. The landscape architects on the committee will each serve a

term of two years. The call for nominations and balloting for committee service will be conducted concurrent with annual balloting for members of the Louisiana Landscape Architects Selection Board.

- c. A licensee shall attend, or complete an approved substitute for attendance, a minimum of 8 credit hours of continuing education within each calendar year. If more than 8 credit hours are obtained during a calendar year, a licensee may carry over a maximum of 4 credit hours from one calendar year to the next. Any credit hours carried over into a following calendar year shall apply to that year only and may not be carried forward into subsequent years. A credit hour shall contain at least 50 minutes of actual instruction or education.
- d. Activities that may be approved for continuing education credits shall contain instructional or educational components. Such activities include annual professional meetings, lectures, seminars, workshops, conferences, university or college courses, in-house training, and self directed activities. The commission's staff shall make the initial determination as to whether an activity qualifies for continuing education credit. If the commission's staff determines that an activity may not qualify, that activity request will be automatically forwarded to the continuing education committee for review and the committee's determination. Any licensee or other applicant for approval of an activity may appeal any committee rejection of an activity for continuing education credit to the commission. However, the commission retains the right to review and approve or disapprove any activity as a qualifying continuing education activity and the number of credit hours arising from such activity, even if there is no appeal. Any appeal from any decision of the commission shall be taken in accordance with the Administrative Procedure Act, (R.S. 49:950 et seq.).
- e. A licensee shall keep all records showing attendance, or completions of an approved substitute for attendance, at continuing education activities for three years following the year in which attendance or completion was done.
- f. Each licensee shall annually submit a written certification signed by the licensee that the licensee has, during that calendar year, attended, or completed an approved substitute for attendance, the number of credit hours stated in the certification. If credit hours carried over from the previous year are being used as a substitute for attendance then the certification shall state the number of carried over credit hours that are being used. The certifications shall be attached to the licensee's annual license renewal application. Any renewal application received without this certification shall not be processed for license renewal and the license fees submitted with the application shall be refunded to the licensee.
- g. The commission shall cause an annual audit of licensees to be conducted. Licensees shall be selected for audit either by cross-section of licensees or by random audit. The provisions of this subsection notwithstanding, an investigation of a licensee for possible violation of these continuing education requirements may be conducted if there is reason to believe that a violation may have occurred. Licensees selected for audit will be required to provide documented proof of their having obtained the continuing education credits for the year being audited. A licensee's failure to provide documented proof of having attended, or completed an approved substitute for attendance, for each credit hours certified for the year being audited shall be a violation of this Part. In the event that a licensee provides documented proof of having attended, or undertaken an approved substitute for attendance, any credit hour certified for the year being audited and such credit hour is disallowed then the licensee shall have six months from date of notification of the disallowance to attend, or complete an approved substitute for attendance, a sufficient number of approved credit hours to make up for the disallowed credits. The credit hours attended to make up for any disallowed credit hours shall not count toward the minimum credit hours needed for any other year. Failure to timely make up for the disallowed credit hours shall be deemed a violation of this Part. An appeal from a disallowance of any credit hour may be taken as provided in Subparagraph d.
- h. A licensee may submit a written request for an approved substitute for attendance or for a hardship exemption or extension of time in which to obtain the minimum credit hours for the year in which the request is made. The licensee shall detail the reason for the request, such as the benefit of any substitution, any physical disability, illness, or extenuating circumstance, and a specification of the requested substitute for attendance, including number of credit hours, course of study, etc. The licensee shall also provide any additional information asked for in consideration of the request.
