**(LAC 7:XXVII.101 – 111, 114, 115, 119, 123, 128, 129, 157 and 161)**

In accordance with the Administrative Procedure Act, R.S. 49:950, *et seq.*, notice is hereby given that the Department of Agriculture and Forestry (“Department”) and the Agricultural Commodities Commission (“Commission”) intend to amend LAC 7:XXVII.101 – 111, 114, 115, 119, 123, 128, 129, 157 and 161. The proposed rules amend Chapter 1 by removing the language “bond” and replacing it with “security.” This is necessary because bonds are not the only type of security accepted by the Commission. The proposed rules also remove language and requirements already set forth in Title 3 of the Revised Statutes. Proposed Rule 114 is new and sets forth guidelines for the temporary storage of commodities. Finally, the proposed amendments to Rule 128 add a new service of vomitoxin testing and an associated fee.

#### **§114. Temporary Storage Facilities**

A. Temporary storage facilities may be approved by the commission on a case by case basis. Temporary storage may only be operated in conjunction with an existing, licensed warehouse and the capacity to be approved shall be compatible with the warehouseman's operational and financial capabilities.

B. A warehouseman who desires to store commodities in temporary storage shall make written application to the commission for approval of temporary storage prior to placing any commodity in temporary storage. The warehouseman shall advise the commission of his intent to use temporary storage, with an application indicating location, construction, quantity to be stored and estimated time of storage.

C. Application for approval of temporary storage shall be made only after completion of the temporary storage structure. All temporary storage structures approved by the commission must comply with each of the following:

1. Rigid, self-supporting sidewalls shall be used.
2. An asphalt or concrete floor or other suitable hard surface shall be used to preserve the quality and quantity of commodities.
3. Proper covering shall be provided which shall preclude exposure of the commodities to normal exposure of all weather conditions.
4. The space shall have necessary equipment such as a leg, conveyers, portable augers, or vaculators for handling, receiving, and loading out of the commodities. All storage units shall have either empty storage space to turn and condition the commodities or be equipped with proper ventilation such as air ducts and ventilation fans to keep the commodities from going out of condition.
5. The space shall be immobile.

D. Any warehouseman approved to use temporary storage must comply with all of the following:

1. Meet inspection, security, net worth and insurance requirements required for a conventional warehouse license.
2. Maintain a separate record of total commodities stored in temporary space in addition to accounting for the commodities in the daily position record.
3. Make the space intended for use as temporary storage accessible for examination by the commission, the department, or their designees.

a. If ready access for inspection purposes is not available to the temporary structure, the warehouseman at the examiner's discretion shall remove the covering or any part of it as required by the examiner to determine quality, condition, and quantity of the commodities in storage.

b. If the warehouseman and the examiner are not in agreement as to the quality of the commodities, the examiner with the assistance of the warehouseman shall take samples of the mass, agreeable to both, and submit at the warehouseman's expense to the nearest GIPSA or GIPSA-designated or delegated office for grading.

c. The examiner shall issue written notice to the warehouseman for any temporary storage facility which no longer meets requirements. Failure of the warehouseman to place the facility in a suitable condition within a reasonable length of time shall result in the facility being eliminated from coverage from the warehouse approval.

E. All commodities shall be removed from temporary storage by the following June 1, except as provided in this Subsection. Failure to remove commodities by June 1 shall constitute a violation of this Part unless an extension is granted as provided in this Subsection.

1. A warehouseman may continue to store commodities in temporary facilities beyond June 1, provided:

a. Application to continue use of temporary storage shall be made in writing by the warehouseman by May 1 or thirty (30) days before the expiration of any extension. The commission or its designee shall inspect the temporary storage facility prior to granting the extension.

i. Based on a visual examination of the temporary structure and observation of the commodities for quantity and quality, the examiner shall report to the commission his findings and recommendation regarding continued approval and/or detailing problems that shall be considered before an extension is granted. Adverse conditions shall be reported by telephone to the commission within 24 hours and in writing within three business days.

b. The time granted on any extension shall not exceed six (6) months.

c. Any approved extension shall be in writing, provide the date the extension shall end and be signed by the warehouseman.

2. If the warehouse chooses to continue using the temporary storage for company-owned commodities after June 1, the warehouse operator shall:

(i) Remove that quantity of the commodity from the warehouse's official records;

(ii) Not use the commodity to cover the storage or warehouse receipted obligations of the warehouse; and

(iii) Agree that the quantity will not be included in any warehouse examination conducted by CCC.

F. The licensing of a temporary storage space in no way relieves the warehouseman of any other obligations for warehousemen set forth in R.S. 3:3401, *et seq.* or LAC 7:XXVII.
