

## COMMISSION APPROVED COMPREHENSIVE TERMITE PROGRAMS

### 1) LSU AgCenter Lois Caffey Termite Training Center

#### Master Class for Technicians and Licensees

The LSU AgCenter Lois Caffey Termite Training Center provides comprehensive wood destroying insect educational programs for pest control professionals. Located on the Baton Rouge campus of Louisiana State University, the Center regularly schedules class sessions designed for participants' level of experience in the pest control industry.

The Center's two-day programs feature hands-on demonstrations on a variety of sample foundations, insect and damage identification, treatment calculations, equipment calibrations and demonstrations, thorough review of state rules and regulations, pesticide safety and environmental concerns. Registration is \$135 and includes hands-on and classroom instruction, binder of take-home materials, lunch on both days, testing and Certificates of Completion.

### 2) LPMA / LSU Summer Institute

#### Summer Pest Control Institute

The Louisiana Pest Management Association (LPMA) and the LSU Entomology Department hold the Summer Pest Control Institute once a year usually during the month of July. This six day institute (held on Monday & Tuesday of three consecutive weeks) provides education on all structural pests, including identification, control, and regulations. The Institute is held in a classroom laboratory on the LSU campus at the Entomology Department. Sessions are taught by university faculty, industry representatives, and structural pest control regulators.

### 3) City of New Orleans & Greater New Orleans Pest Control Association

#### Termite Academy

The City of New Orleans and the Greater New Orleans Pest Control Association Termite Academy is held in New Orleans at least once a year. This three day Academy offers comprehensive and in-depth information regarding termites and wood destroying organisms.. The Academy places emphasis on field training and insect identification. In order to provide hands-on training, the class size is limited to 30 registrants. The Academy includes presentations by industry leaders and university experts.
