Prior to the cultivation, processing or contracting to transport industrial hemp, a person must first submit an application and receive an industrial hemp license from LDAF. Applications should be submitted to 5825 Florida Blvd., Suite 3004 Baton Rouge, LA 70806 or one of the LDAF district offices. See attached district office map. All information in this application packet must be completed and the application returned to LDAF along with any required attachments.

**If you need assistance completing this application, please contact us by phone at 225-925-4863 or by email at [industrialhemp@ldaf.la.gov](mailto:industrialhemp@ldaf.la.gov).**

All new industrial hemp license applications must be submitted and approved prior to cultivating, processing or contracting to transport industrial hemp. Renewal applications must be submitted annually no later than **4:30 PM on November 30**. LDAF may deny any license application that fails to meet the deadline established on this application. LDAF recommends that applicants use a delivery method with tracking capabilities when submitting an application. LDAF is not responsible for applications lost in the mail or not received. Applicants should keep a copy of the completed application, all attachments, and, if applicable, the mail receipt and tracking number for your records.
  - **Fee Schedule** - A \$500 license fee (check or money order made payable to LDAF) is due upon notification of application approval. No license shall be issued until full payment of the license fee is received by LDAF.
  - **Application File Format** – Industrial hemp applications are available in an electronic fillable form. Any license application missing required information may be subject to denial.
- **Application from a Business Entity** - A license shall **not** be issued in the name of a business entity. The “applicant” for a business entity is the person submitting the application and is designated by the business as being responsible for daily business operations.
  - LDAF requires the submission of a *Key Participant Disclosure* form for all business entity applicants. A Key Participant is a sole proprietor, a partner in partnership, or a person with executive managerial control in a corporation. A person with executive managerial control includes persons such as a chief executive officer, chief operating officer and chief financial officer. This definition does not include non-executive managers such as farm, field, or shift managers.
  - LDAF requires the submission of a *Designated Responsible Party Declaration* form for all business entity applicants. The designated responsible party is the person designated by the applicant or licensee as responsible for facility operations of the applicant or licensee facility.
  - Only one designated responsible party shall be allowed to represent a business entity.
  - If a business entity requires a change of the designated responsible party or key participants anytime during the application process or after a license is issued, the business must submit a new *Designated Responsible Party Declaration* or *Key Participant Disclosure* form, current background checks, and copy of the new Designated Responsible Party Declaration driver’s license to LDAF.
- **Application Review** - LDAF will evaluate each application to verify that the application is complete and required documents are included. After the evaluation is completed, applicants will be notified of the application status.
- **Prohibited Activities** - The activities listed below are prohibited activities. A current licensee found to be conducting or participating in any of these activities may be subject to regulatory actions, including but not limited to license revocation and forfeiture or destruction of all cannabis materials in their possession.
  - Cultivating, processing or contracting to transport cannabis that is not industrial hemp (greater than 0.3% THC concentration on a dry weight basis).
  - Possessing or cultivating industrial hemp plants or plant parts on any site not listed in the licensing application or subsequent site modification request form.
  - Cultivating or storing industrial hemp:
    - in any structure that is used for residential purposes;

  - ♣ Applicant's name, and if applicable, the business name printed on the map page;
  - ♣ Physical address of the location;
  - ♣ Expanded view to show the site, a public roadway and the road name;

### **Refer to example map on next page**

- LDAF prefers all maps be created with Google Earth; however other mapping sources may be used. You can download Google Earth Pro for free by visiting <https://www.google.com/earth/download/gep/agree.html/>. If asked for a registration key, enter "GEPFREE".
- You can access Google Maps online at <https://www.google.com/maps/>. When you have the address on your screen, you can click the button in the lower left corner that says "Earth" or "satellite" for an aerial view of the location.
- On Map Quest at <https://www.mapquest.com/> locate the address on your screen, and then click in the upper right corner on "Satellite" for an aerial view of the location.
- Print out the map when you are satisfied with the level of zoom. Map should show at least one nearby road, the entrance to the site, and the identification of the hemp locations.
- Finish the map by handwriting in the required information. For maps created in Google Earth you can save the image to a Microsoft Word Document and add a text box(s) for the required information. To add a text box, click in an area outside of the map and choose *Insert* and then *Text Box*. Enter the information into the text box and move the text box into the appropriate area of the map. You may resize the map if required. Repeat the above steps for multiple text boxes.

## What is a Contiguous Location?

A contiguous field will NOT have multiple strains or varieties, any breaks, fence lines, tree/brush lines, canals or bodies of water or roads dividing the field. Any field with these types of divisions shall be considered to be two or more separate fields and require individual map outlines and GPS coordinates.

Individual greenhouses/indoor growing structures are considered separate and require GPS coordinates. Different varieties or strains within a greenhouse or indoor growing structure are considered separate plots.

Contiguous Location?	Example (V = strain/variety)
<b>Yes, 1 Field</b>	
<b>No, 2 Fields</b> <b>Reason:</b> Field divided by trees or brush row.	
<b>No, 2 Fields</b> <b>Reason:</b> Divided by a canal or body of water.	
<b>No, 2 Fields</b> <b>Reason:</b> Field divided by fence	
<b>No, 2 Fields</b> <b>Reason:</b> Two different strains/varieties	
<b>No, 2 Fields</b> <b>Reason:</b> Field divided by more than 20 feet.
