

Louisiana Exam Information

In addition to passing the Landscape Architect Registration Examination (LARE), Louisiana candidates are required to pass the Louisiana Landscape Architect Examination (LLAE) before obtaining licensure. The LLAE is a multiple-choice examination of subject areas that are unique to the practice of landscape architecture in Louisiana. The exam is computer-based and administered year-round at the LDAF main office located in Baton Rouge. Once candidates have passed all sections of the LARE they may apply for and take the LLAE.
