Citrus trees underwater in Plaquemines Parish following Hurricane Isaac.

Ag losses from Isaac depends on Sept. weather

LSU AgCenter Report

LSU AgCenter specialists are in the process of collecting information about the damage to agricultural commodities across the state as a result of Hurricane Isaac. But to a large extent, the actual dollar losses will depend on weather conditions over the next few weeks.

Kurt Guidry, AgCenter economist, puts a rough figure of about \$92 million so far in crop yield losses from Isaac, adding that he has no numbers yet on losses in the livestock industry. His estimate includes sugarcane, rice, corn, cotton, sweet potatoes, grain sorghum and pecans.

"That only includes estimates on yield losses – not increased production costs or quality damage," Guidry said.

Guidry will continue to gather information from assessments being conducted statewide by county agents and commodity production specialists.

"This ongoing effort could lead to additional impacts being identified for these commodities as well as other commodities," he said.

He said if rain continues, many farmers will likely experience delayed harvest, increased harvest costs and increased quality losses for their crops. But dry weather with some sunshine would help limit some of the losses producers may face, especially with sugarcane.

Kenneth Gravois, AgCenter sugarcane specialist, said dry weather and sunshine can help sugarcane blown over by fierce winds right itself and recover.

"The true extent of any sugarcane loss won't be known until harvest," he said, adding that maturity will be delayed, and the cost of harvest and planting will be increased.

So far, there appear to be no losses in the poultry industry, which is Louisiana's largest animal industry. Assessment of the beef cattle business is continuing.

"Based on the path of the storm, it would appear that the most significant impacts to the cattle industry will be confined to the southeastern portion of the state," Guidry said.

Dairy farmers had to deal with some isolated cases of fences being damaged, said Ronnie Bardwell, extension dairy agent at the Southeast Research Station in Franklinton. He said there may be some temporary decline in production because of cow stress.

After natural disasters, such as hurricanes, LSU AgCenter economists put together as quickly as possible numbers for losses, which are then used by farmers, the U.S. Department of Agriculture and other agencies. AgCenter commodity specialists gather information from farmers and extension agents in the affected parishes.

Preliminary estimates show that the highest percentage loss from Isaac is to sweet potatoes at about 15 percent.

"We could see 15 percent losses in a few areas that received heavy rains and held water," said Tara Smith, AgCenter sweet potato specialist, adding that most sweet potato growing-areas received less than 4 inches of rain.

Guidry said the average statewide loss to pecan production could be about 12 percent while he estimated it to be about 10 percent for cotton.

Average statewide yield losses were estimated at less than 5 percent for sugarcane, 3.5 percent for soybeans, and less than 1 percent for other crops.

"Fortunately for commodities such as corn, grain sorghum and rice, the majority of those crops were harvested prior to the storm," Guidry said. "While those acres not harvested have experienced yield impacts, the impact to statewide production levels is expected to be limited."

Arrests made in Tangipahoa Co-Op theft

Baton Rouge, LA (August 21, 2012) – The Louisiana Department of Agriculture and Forestry (LDAF) Livestock Brand Commission and the Tangipahoa Parish Sheriff’s Office have arrested seven people in connection with organized retail theft.

Authorities estimate the thefts amounted to approximately \$150,000. Three of the people arrested were employees of the Kentwood Co-Op, one was a relative of one of the employees and the rest were individuals who were allegedly buying stolen merchandise from the employees.

LDAF Commissioner Mike

Strain, D.V.M., said, “When a co-op is not making money because of theft, those losses are put back on the farmer in the form of higher prices. It’s not fair to our hardworking farmers.”

Missing items included: horse feed, cattle feed, dog food, shelled corn, alfalfa bales and cubes, chicken feed, protein tubs, bagged minerals, mineral blocks, salt blocks, dewormer blocks, iron clay pea seeds, sorghum seed, milk replacer, herbicides and a 16 foot galvanized gate. The arrests occurred between Aug.13-17.

The employees suspected and charged with one count of organ-

ized retail theft and simple burglary are Oscar Joey Sharp of Kentwood and Michael Stewart of Fluker. Employee Fredrick Shropshire of Magnolia, MS is charged with organized retail theft and principal to simple burglary. Amos Floyd Womack III of Kentwood, Darrell Sanders Jones of Kentwood, Robert N. Hutchinson, Jr. of Tangipahoa and Michael Samuel Trabona of Amite are charged with organized retail theft.

The investigation is ongoing and authorities say more arrests could be made.

If convicted of stealing what

amounts to a value less than \$500, a person shall be imprisoned with or without hard labor for not more than two years, or may be fined not more than \$2000, or both. If convicted of stealing what amounts to a value more than \$500, a person shall be imprisoned with or without hard labor for not more than 10 years, or may be fined not more than \$10,000, or both.

The Kentwood Co-Op is a farmer owned co-op that supplies farming and ranching feed and supplies.

The Livestock Brand Commission employees are commissioned law enforcement officers with statewide jurisdiction and

Have you sold cattle on the farm?

The beef check-off law goes into effect every time cattle are sold. This includes purebred sales and private treaty sales on the farm. The law requires that you must collect the national, plus the 50 cents state check-off money during your sale. The 50 cents state check-off is now a Mandatory Collection as a result of Act 298 passed in the 1995 Louisiana legislature, but producers may request a refund of this amount only, by written request to the Louisiana Beef Industry Council.

The seller is also responsible under the law. The seller may collect and remit the \$1.50 per head in a private treaty transaction. This is the best way to handle purebred sales. To avoid a late payment charge, money must be remitted by the 15th of the month following the sale. Penalties of up to \$5,000 per transaction applies to violators. All sale transactions are subject to audit to insure compliance with the check-off law.

Please use the form below when submitting the collected check-off funds.
