

Louisiana 2012 Reportable Disease List

All veterinarians practicing veterinary medicine in the state shall report any of the diseases listed below to the Louisiana State Veterinarian **within 24 hours** after making a diagnosis or tentative diagnosis of any such disease. Information reported should include:

1. Name, address, and phone number of the owner
2. Location of the premises
3. Morbidity and mortality rate at the time of reporting
4. Number of susceptible species in the immediate area
5. Approximate number of animals or poultry exposed

Reports may be made by telephone, Fax, or email to:

Office of Animal Health and Food Safety
Veterinary Health Division
Office: 225-925-3980
Fax: 225-237-5555
Email: vetreports@ldaf.state.la.us

Reportable Disease Alphabetical List:

Anthrax
Avian Influenza
Brucellosis
Classical Swine Fever (aka, hog cholera)

Equine Herpes Virus I (EHV-1)
Equine Infectious Anemia (EIA)
Equine Viral Arteritis (EVA)
Exotic Newcastle Disease (9 serotypes, PMV-1 to PMV-9)
Foreign Animal Diseases (as designated by USDA)
Infectious Laryngotracheitis (LT)
Ornithosis (aka, Chlamydiosis, Psittacosis)
Pseudorabies (PRV)
Rabies
Salmonella (aka, Pullorum Disease)
Spring Viremia of Carp
Strangles
Transmissible Spongiform Encephalopathies (BSE, CWD, Scrapie)
Trichomoniasis
Tuberculosis
Vesicular Conditions (FMD, VS, SVD, VES)
Viral Hemorrhagic Septicemia (VHS)

Reportable Disease List by Livestock Species Affected:

Rabies:

All mammalian species

Cattle:

Anthrax
Bovine Spongiform Encephalopathy
Brucellosis
Trichomoniasis
Tuberculosis
Vesicular conditions

Equine:

All encephalomyelitis conditions
Brucellosis
Equine Herpes Virus I
Equine Infectious Anemia
Equine Viral Arteritis
Strangles
Vesicular Stomatitis

Poultry:

Avian Influenza
Chlamydiosis
Exotic Newcastle disease
Infectious Laryngotracheitis
Salmonella

Fish:

Spring Viremia of Carp
Viral Hemorrhagic Septicemia

Swine:

Anthrax
Brucellosis
Classical Swine Fever (hog cholera)
Pseudorabies
Tuberculosis
Vesicular conditions

Sheep:

Anthrax
Brucellosis
Scrapie
Vesicular conditions

Cervids:

Chronic Wasting Disease
Brucellosis
Tuberculosis

Goats:

Brucellosis
Vesicular conditions
