Notes      The mission of Grow Dat Youth Farm is to nurture a diverse group of young leaders through the meaningful work of growing food.

#### **Company Overview**

Grow Dat Youth Farm's mission is to nurture a diverse group of young leaders through the meaningful work of growing food. On the farm we work collaboratively to produce healthy food for local residents and to inspire youth and adults to create personal, social and environmental change in their communities. Grow Dat is a place where people of different backgrounds and disciplines come together in research and practice to support public health, local economies and a sustainable food system in South Louisiana.

The mission of Grow Dat Youth Farm is to nurture a diverse group of young leaders through the meaningful work of growing food.

The mission of the Grow Dat Youth Farm is to nurture a diverse group of young leaders through the meaningful work of growing food. On their farm they work collaboratively to produce healthy food for local residents and to inspire youth and adults to grow their own. They host school field trips for New Orleans area children and many mission groups coming to New Orleans in the aftermath of Katrina spend some of their volunteer time helping on the farm.

Notes    The Recirculating Farms Coalition works with communities to create stable green jobs and grow affordable local, fresh food by building support for eco-friendly recirculating farms.

#### Company Overview

Non-profit, local, affordable, healthy food advocacy, social justice, sustainable business, organization

The Recirculating Farms Coalition is a collaborative group that supports building eco-friendly farms using clean recycled water to grow local, affordable, fresh food and create stable green jobs.

#### General Information

A recirculating farm uses naturally cleaned, continually recycled water to grow a variety of fruits, vegetables, herbs, flowers, and/or fish.

RFC manages an educational and commercial recirculating farming operation in the Central City neighborhood of New Orleans.

Recirculating farming are systems that use any combination of aquaponics, hydroponic, aquaculture farming techniques. Our farm

functions at two locations in the neighborhood. We open our doors to tourists and the public for educational tours and workshops related to a variety of agricultural issues. We also have a small area open to the public and devoted to community gardening.

Notes Luckett Farms began as a first generation farm. It all started at our home garden, 2 acres in Central. We quickly out "grew" our area and moved to 30 acres in Pride. In 2017, We were able to partner with The State of Louisiana and Lease 100 + acres at the Beautiful Rosedown Plantation in St. Francisville, La. We are so excited for the opportunity to cultivate the land and persevere the agriculture history.

We are a local Family Farm working 7 days a week to share our passion with our customers and visitors. We enjoy providing the community with local, quality, home grown produce for affordable pricing. We currently sell our produce direct to the consumer either through our CSA Program, seasonally at the Red Stick Farmer's Market, and (this fall) at our "New" Roadside stand At Rosedown Plantation. We are working hard to provide the community with fresh, homegrown vegetables!"growing healthy food for our family and yours!" Join us for a Farm tour!!

Notes Bringing organic produce, pasture-raised meats and eggs to Louisiana.

Inglewood Farm is home to Central Louisiana's first state-certified organic farmer's market. Through humane, dignified, and environmentally sustainable farming practices, Inglewood's 3,500 acres of the Red River Delta's finest soil produces crops that will satisfy Louisianans' growing demand for local, organic produce. Along with vegetables, chickens, and eggs, the farm will also offer an array of other fresh, seasonal, and healthy products, such as our famous, melt-in-your-mouth Inglewood Pecans.
