

FIND LOCAL FARM-FRESH FOOD DURING COVID-19

This directory includes Louisiana farms selling directly to consumers, farmers markets, and distributors selling Louisiana products that are still operating during COVID-19. Many sellers are now incorporating innovative and safe alternatives to bring farm-fresh food directly to households, including home delivery, curbside pickup, and drive-thru farmers markets.

Are you a Louisiana farm/business selling farm-fresh food during COVID-19? Please complete this [form](#) to add or update information in this directory. The LSU AgCenter is collaborating with LDAF to maintain this directory, if you have any questions please [email](#) Johannah Frelier.
